

American Journal of ORTHODONTICS

*Official publication of the American Association of Orthodontists,
its constituent societies, and the American Board of Orthodontics*

Editors

Wayne G. Watson, D.D.S.

Editor-in-Chief

Mailing address: Post Office Box 1886, La Jolla, California 92038

Street address: 7736 Fay Ave., Suite 103, La Jolla, California 92037

Telephone: (619)459-1749

Earl E. Shepard, D.D.S.

Business Editor

225 South Meramec Avenue, St. Louis, Missouri 63105

T. M. Graber, D.M.D., Ph.D.

Editor of Reviews and Abstracts

1717 Howard Street, Evanston, Illinois 60202

B. F. Dewel, D.D.S.

Editor Emeritus

2007 Bennett Avenue, Evanston, Illinois 60201

J. A. Salzmann, D.D.S.

Editor Emeritus of Reviews and Abstracts

25 Sutton Place South, New York, New York 10022

Editorial Coordinator

Penny Wilkes

Subject index

A

- Activator and headgear therapy, hard and soft-tissue profile changes after, 261 (Abst.)
 headgear therapy (Levin), 91
 treatment, alterations in temporomandibular joint following, 518
- Adolescence, late mandibular growth during, in delayed, average, and advanced pubertal growth spurt, 86 (Abst.)
- Alloy, new orthodontic, Chinese NiTi Wire (Burstone and Morton), 445
- Alveolar osteotomy, total mandibular (Pangrazio-Kulbersh and MacIntosh), 319
- American Association of Orthodontists, Council on Research; 1985 award recipients, 520
 eighty-fifth annual session, preliminary program, 147
 meeting calendar, 89, 173, 263, 351, 443, 521
 membership distribution, 173
 officers and organizations, directory, 90, 174, 264, 352, 444, 522
- American Dental Association, H. Curtis Hester elected vice-president of, 172
- American Journal of Orthodontics; consultants—1978 to 1985, 513 (Editorial)
- ANB angle, analysis of variation of, statistical appraisal (Järvinen), 144
- Angle, ANB, variation of (Järvinen), 144
 saddle, and maxillary prognathism, radiological analysis of association between NSAr and SNA angles, 262 (Abst.)
- Appliance, Herbst, biologic effects and clinical use (Pancherz), 1
- Appliances, functional jaw orthopedic, indications for, 518 (Abst.)
 movable, rigid and elastic, relative effectiveness of, in daily practice, 517 (Abst.)
 orthodontic, application of engineering mechanics to force and structural analyses of, 253 (Guest editorial)
 removable, patient cooperation in treatment with (Gross, Samson, and Dierkes), 392
- Asymmetry, progressive facial, as result of early closure of left coronal suture (Arvystas, Antonellis, and Justin), 240
- Attractiveness of young adults, social, influence of dentofacial appearance on (Shaw et al.), 21
- January, pp. 1-90; February, pp. 91-174; March, pp. 175-264; April, pp. 265-352; May, pp. 353-444; June, pp. 445-532.

528

B

- Bands and brackets, orthodontic, demineralization related to, 87 (Abst.)
- Bond strength, in vitro tensile, of reconditioned brackets (Wright and Powers), 247
 of no-mix orthodontic cements, in vitro, factors affecting (Evans and Powers), 508
 of three resin systems used with brackets and embedded wire attachments (Schulz et al.), 75
- Bone grafting, delayed, in cleft maxilla and palate, 256 (Letters to the editor)
 , temporal, adaptations in response to protrusive function in juvenile and young adult rhesus monkeys, 84 (Abst.)
- Brackets and bands, orthodontic, demineralization related to, 87 (Abst.)
 embedded wire attachments, bond strengths of three resin systems used with (Schulz et al.), 75
 reconditioned, in vitro tensile bond strength of (Wright and Powers), 247
- British Association of Orthodontists' seventeenth annual conference, 351

C

- Canadian Association of Orthodontists, officers of, 1985 annual meeting, 88
- Canine-retraction spring, new, biomechanical design and clinical evaluation of (Gjessing), 353
- Cartilage graft, postcondylar—Evaluation of alternative surgical method for treatment of retrognathia (Banks), 406
- Caveney, James J., elected president of West Virginia Dental Association, 442
- Cements, no-mix orthodontic, factors affecting in vitro bond strength of (Evans and Powers), 508
- Centric relation and pathological mandibular sliding in children and adults, 84 (Abst.)
 two techniques for recording, 517 (Abst.)
- Cephalometric appraisal of first-premolar-extraction cases treated by edgewise orthodontics, in mandibular anterior alignment (Shields, Little, and Chapko), 27
- radiographs, lateral, Pascal computer program for digitizing (Konchak and Koehler), 197

- Child, maxillofacial orthopedics for, 170 (Abst.)
- Chin cup therapy, effects of, on mandible (Wendell et al.), 265
- projection, mandibular and, increase in with orthognathic surgery (Poulton and Ware), 363
- Cleft lip and cleft palate patients, profile of, changes due to treatment and growth in, 519 (Abst.)
- maxilla and palate, delayed bone grafting in, 256 (Letters to the editor)
- of lip and palate, unilateral and bilateral, eruption pattern of teeth adjacent to, 86 (Abst.)
- palate and cleft lip patients, profile of, changes due to treatment and growth in, 519 (Abst.)
- unoperated, dentofacial relationships in persons with (Bishara et al.), 481
- Computerized growth prediction, accuracy of, in Class II high-angle cases (Thames, Sinclair, and Alexander), 398
- Computer program, Pascal, for digitizing lateral cephalometric radiographs (Konchak and Koehler), 197
- Condylar growth in guinea pigs, effect of pulsating electromagnetic fields on (Gerling, Sinclair, and Roa), 211
- mandibular, alterability of in rat, and implications, 516 (B. rev.)
- of mandible and orthodontic treatment, 81 (Guest editorial); 438 (Letter to the editor)
- and orthodontic treatment, comments on, 438 (Letter to the editor)
- Congenital absence, bilateral, of maxillary lateral incisors (Woodworth, Sinclair, and Alexander), 280
- Contractions, isometric, fatiguing, electromyography of human masseter muscle during, 517 (Abst.)
- Coronal suture, left, early closure of, progressive facial asymmetry as result of (Arvystas, Antonellis, and Justin), 240
- Craniofacial growth, finite element method modeling of (Moss et al.), 453
- muscles, neuromuscular adaptation of, to altered oral sensation (Miller, Vargervik, and Phillips), 303
- Credibility of new information, 166 (Guest editorial)
- D**
- Deep bite problems, management of, 349 (Abst.)
- Deformities, dentofacial, surgical correction of, 439 (B. rev.)
- Degradation, force, of orthodontic elastomeric chains (De Genova et al.), 377
- Demineralization related to orthodontic bands and brackets, 87 (Abst.)
- Dental and periodontal tissues of rat incisor following application of continuous intrusive loads, recovery of (Michaeli, Steigman, and Harari), 135
- atlas, handbook for patient education, 168 (B. rev.)
- materials for dental hygienists and assistants, elements of, 169 (B. rev.)
- Dentofacial appearance, influence of, on social attractiveness of young adults (Shaw et al.), 21
- deformities, surgical correction of, 439 (B. rev.)
- relationships in persons with unoperated clefts (Bishara et al.), 481
- variation, nature versus nurture in, 83 (Abst.)
- Development, postnatal, of rat skull, 169 (B. rev.)
- Disease, periodontal, recognition, interception, and prevention of, 168 (B. rev.)
- Distal bite, effectiveness of Fränkel method in treatment of, 519 (Abst.)
- Dummy- and finger-sucking habit, prevalence and etiology of initial (Larsson and Dahlin), 432
- E**
- Edgewise orthodontics, cephalometric appraisal of first-premolar-extraction cases treated by, in mandibular anterior alignment (Shields, Little, and Chapko), 27

- Editorial, consultants—1978 to 1985, 513
- T. M. Graber—Communicator, educator, researcher, 436
- guest, comments on condylar growth of the mandible and orthodontic treatment, 81
- on the application of engineering mechanics to the force and structural analyses of orthodontic appliances, 253
- Quo Vadis? 345
- Who said that? 166
- Elastomeric chains, orthodontic, force degradation of (De Genova et al.), 377
- Electromagnetic fields, pulsating, effect of, on condylar growth in guinea pigs (Gerling, Sinclair, and Roa), 211
- Electromyographic analysis of temporalis function of normal occlusion (Ahlgren, Sonesson, and Blitz), 230
- Electromyography of human masseter muscle during fatiguing isometric contractions, 517 (Abst.)
- EMG, normal occlusion, of temporalis, 171 (Abst.)
- Enamel fluoride uptake and tensile bond strength of orthodontic bonding resin, effect of topical fluoride treatment on (Bryant et al.), 294
- Engineering mechanics, application of, to force and structural analyses of orthodontic appliances, 253 (Guest editorial)
- Eruption pattern of teeth adjacent to cleft in subjects with unilateral and bilateral clefts of lip and palate, longitudinal cephalometric study of, 86 (Abst.)
- Eruptive tooth movements, pattern and control of, (Steedle and Profit), 56
- Esthetics, facial, silhouette profiles in the assessment of (Barrer and Ghafari), 385
- Extraction of infraoccluded deciduous molars, effect of (Kuroi and Koch), 46
- Extrusion, orthodontic, of single-rooted teeth affected with advanced periodontal disease (van Venrooy and Yukna), 67

F

- Face mask/rapid maxillary expansion, simultaneous, in mixed dentition, cephalometric evaluation of, 87 (Abst.)
- Facial asymmetry, progressive, as result of early closure of left coronal suture (Arvystas, Antonellis, and Justin), 240
- esthetics, silhouette profiles in assessment of (Barrer and Ghafari), 385
- growth following pharyngeal flap surgery: Skeletal assessment on serial lateral cephalometric radiographs (Long and McNamara), 187
- Finger- and dummy-sucking habit, prevalence and etiology of initial (Larsson and Dahlin), 432
- Finite element method modeling of craniofacial growth (Moss et al.), 453
- Fluorides, clinical uses of, 348 (B. rev.)
- treatment, topical, effect of, on enamel fluoride uptake and tensile bond strength of orthodontic bonding resin (Bryant et al.), 294
- Force degradation of orthodontic elastomeric chains (De Genova et al.), 377
- orthodontic, in rat and man, tissue reactions following, 350 (Abst.)
- systems, magnetic, in orthodontics (Blechman), 201
- Fränkel method in treatment of distal bite, effectiveness of, 519 (Abst.)
- Functional occlusion, an introduction to, 83 (B. rev.)
- Function regulator, technique and handling, 82 (B. rev.)

G

- Gingiva, attached, width of during orthodontic treatment, clinical study in human patients (Busschop et al.), 224
- Glenoid fossa, effect of increased upward displacement of, on mandibular growth, 85 (Abst.)
- Graber, T. M., 436 (Editorial)
- Growth, craniofacial, finite element method modeling of (Moss et al.), 453

Growth—Cont'd

- facial, following pharyngeal flap surgery, skeletal assessment on serial lateral cephalometric radiographs (Long and McNamara), 187
- increments, profile, integumental, of normal males and females from 8 to 18 years of age, longitudinal study of, 170 (Abst.)
- prediction, computerized, accuracy of, in Class II high-angle cases (Thames, Sinclair, and Alexander), 398
- rotation, puzzle of (Dibbets), 473

H

- Headache, muscle contraction, mandibular dysfunction in patients with, 441 (Abst.)
- Headgear and activator therapy, hard and soft-tissue profile changes after, 261 (Abst.)
- therapy, activator (Levin), 91
- Head, neck, and TMJ pain and dysfunction, clinical management of, 439 (B. rev.)
- position, effects of, on intraoral pressures in Class I and Class II adults (Archer and Vig), 311
- Heart disease, congenital, or rheumatic fever, survey to evaluate management of patients with history of (Gaidry et al.), 338
- Herbst appliance, biologic effects and clinical use (Pancherz), 1
- Hester, H. Curtis, elected American Dental Association vice-president, 172
- Hygienists and assistants, dental materials for, 169 (B. rev.)

I

- Incisors, maxillary lateral, bilateral congenital absence of (Woodworth, Sinclair, and Alexander), 280
- rat, dental and periodontal tissues of, following application of continuous intrusive loads, recovery of (Michaeli, Steigman, and Harari), 135
- Information, new, who said it, who approved it, what evidence to support it, 166 (Guest editorial)
- Infraoccluded deciduous molars, effect of extraction of (Kurol and Koch), 46
- In memoriam, Frederick M. Deuschle, 258
- David W. Liddle, 258
- Robert Edward Wade, 259
- Intraoral pressures in Class I and Class II adults, effects of head position on (Archer and Vig), 311

J

- Jarabak, Louise Ada, Memorial Room dedicated, 263
- Joint, temporomandibular, dysfunction (Bandein and Timm), 275
- Juvenile periodontitis, orthodontic therapy in patients with (Folio, Rams, and Keyes), 421

L

- Laminographic study of alterations in temporomandibular joint following activator treatment, 518 (Abst.)
- Letters to the editor, 256, 257, 438
- Lischer, Benno E., award, 351
- Loyola University School of Dentistry dedicates Louise Ada Jarabak Memorial Room, 263

M

- Magnetic force systems in orthodontics (Læchman), 201
- Magnets, use of, in orthodontics, alternative means to produce tooth movement, 261 (Abst.)

- Malocclusion, anterior open-bite, longitudinal 10-year postretention evaluation of orthodontically treated patients (Lopez-Gavito et al.), 175

- Class I and Class II, effects of head position on intraoral pressures in adults with (Archer and Vig), 311

- Class II, accuracy of computerized growth prediction in high-angle cases (Thames, Sinclair, and Alexander), 398

- Class II, Division 1, cineradiographic study of functional soft tissue changes in, 86 (Abst.)

- Class II, Division 1, an investigation of treatment provided in general dental service for patients with, 84 (Abst.)

- psychosocial implications: 15-year follow-up study in 30-year-old Danes (Helm, Kreiborg, and Solow), 110

- sagittal, analysis of variation of ANB angle (Järvinen), 144

- Mandible and orthodontic treatment, condylar growth of, 81 (Guest editorial)

- effects of chin cup therapy on (Wendell et al.), 265

- Mandibular alveolar osteotomy, total (Pangrazio-Kulbersh and MacIntosh), 319

- and chin projection, increase in with orthognathic surgery (Poulton and Ware), 363

- condylar growth in rat and implications, alterability of, 516, (B. rev.)

- dysfunction in patients with muscle contraction headache, 441 (Abst.)

- growth, late, during adolescence in delayed, average, and advanced pubertal growth spurt, 86 (Abst.)

- sliding, pathological, centric relation and, in children and adults, 84 (Abst.)

- Masseter muscle, human, electromyography of, during fatiguing isometric contractions, 517 (Abst.)

- Materials, dental, for dental hygienists and assistants, elements of, 169 (B. rev.)

- Maxillary expansion, rapid/face mask, in the mixed dentition, cephalometric evaluation of, 87 (Abst.)

- rapid, surgical-orthodontic, tomographic assessment of nasal septal changes following (Schwarz et al.), 39

- lateral incisors, bilateral congenital absence of (Woodworth, Sinclair, and Alexander), 280

- prognathism, and saddle angle, radiological analysis of association between NSAR and SNA angles, 262 (Abst.)

- Maxillofacial orthopedics, clinical approach for growing child, 170 (Abst.)

- Melsen, Birte, receives Robert H. W. Strang Award, 172

- Minigraph occlusion analysis, 169 (B. rev.)

- Molars, infraoccluded, deciduous, effect of extraction of (Kurol and Koch), 46

- tilt, lower third, further observations on, 262 (Abst.)

- Movable appliances, rigid and elastic, in daily practice, relative effectiveness of, 517 (Abst.)

- Muscles, craniofacial, neuromuscular adaptation of, to altered oral sensation (Miller, Vargervik, and Phillips), 303

- Myofascial pain as main symptom of TMJ dysfunction pain syndrome, 261 (Abst.)

N

- Nasal septal changes following surgical-orthodontic rapid maxillary expansion, tomographic assessment of (Schwarz et al.), 39

- Neuromuscular adaptation of craniofacial muscles to altered oral sensation (Miller, Vargervik, and Phillips), 303

- News and comment, 88, 172, 263, 351, 442, 520

- New Zealand Orthodontic Society, holding 1986 International Orthodontic Conference, 89

- Nickel-titanium; Chinese NiTi wire, new orthodontic alloy (Burstone and Morton), 445

- Niti wire, Chinese, new orthodontic alloy (Burstone and Morton), 445

O

- Occlusion analysis, minigraph, 169 (B. rev.)
EMG, of temporalis, normal, 171 (Abst.)
functional, an introduction to, 83 (B. rev.)
normal, temporalis function of, electromyographic analysis of (Ahlgren, Sonesson, and Blitz), 230
Ohio State University offers 3-year postgraduate course, 442
Oklahoma Orthodontic Society, new officers, 351
Open-bite malocclusion, anterior, longitudinal 10-year postretention evaluation of orthodontically treated patients (Lopez-Gavito et al.), 175
Oral diagnosis, oral medicine, and treatment planning, 348 (B. rev.)
sensation, altered, neuromuscular adaptation of craniofacial muscles to (Miller, Vargervik, and Phillips), 303
Orthodontic appliances, application of engineering mechanics to force and structural analyses of, 253 (Guest editorial)
current principles and techniques, 347 (B. rev.)
statistics in, use and fallacies, 170 (Abst.)
treatment, width of attached gingiva during, clinical study in human patients (Busschop et al.), 224
Orthognathic surgery, increase in mandibular and chin projection with (Poulton and Ware), 363
norms for American black patients (Connor and Moshiri), 119
Orthopedic appliances, functional jaw, indications for, 518 (Abst.)
maxillofacial, clinical approach for growing child, 170 (Abst.)
Osteotomy, total mandibular alveolar (Pangrazio-Kulbersh and MacIntosh), 319
Ottley, John K., Jr., elected honorary member of Southern Society of Orthodontists, 520

P

- Pacific Coast Society of Orthodontists, new members, 442
Pain and dysfunction, head, neck, and TMG, clinical management of, 439 (B. rev.)
chronic, and TMJ syndrome, 85 (Abst.)
myofascial, as main symptom of TMJ dysfunction pain syndrome, 261 (Abst.)
Palatal expansion, conservative, surgical, 257 (Letter to the editor)
Pascal computer program for digitizing lateral cephalometric radiographs (Konchak and Koehler), 197
Patients, American black, orthognathic surgery norms for (Connor and Moshiri), 119
cooperation in treatment with removable appliances (Gross, Samson, and Dierkes), 392
needs, lack of concern for and attention to, 345 (Guest editorial)
Periodontal and dental tissues of rat incisor following application of continuous intrusive loads, recovery of (Michaeli, Steigman, and Harari), 135
disease, advanced, orthodontic extrusion of single-rooted teeth affected with (van Venrooy and Yukna), 67
recognition, interception, and prevention of, 168 (B. rev.)
Periodontitis, juvenile, orthodontic therapy in patients with (Folio, Rams, and Keyes), 421
Pharyngeal flap surgery, facial growth following, skeletal assessment on serial lateral cephalometric radiographs (Long and McNamara), 187
Postcondylar cartilage graft—Evaluation of alternative surgical method for treatment of retrognathia (Banks), 406
Practice announcements, 89, 172, 263, 520
Pressures, intraoral, in Class I and Class II adults, effects of head position on (Archer and Vig), 311
Profile changes, hard and soft-tissue, after headgear and activator therapy, 261 (Abst.)
growth increments of normal males and females 8 to 18 years of age, integumental, longitudinal study of, 170 (Abst.)
of cleft palate and cleft lip patient, changes due to treatment and growth in, 519 (Abst.)

Profile changes—Cont'd

- silhouette, in the assessment of facial esthetics (Barrar and Ghafari), 385
Prognathism, maxillary, and saddle angle, radiological analysis of association between NSAr and SNA angles, 262 (Abst.)
Prostaglandins and tooth movement, 85 (Abst.)
Protrusive function in juvenile and young adult rhesus monkeys, temporal bone adaptations in response to (Abst.), 84
Psychosocial implications of malocclusion: 15-year follow-up study in 30-year-old Danes (Helm, Kreiborg, and Solow), 110
Pulsating electromagnetic fields, effect of, on condylar growth in guinea pigs (Gerling, Sinclair, and Roa), 211

Q

- Quadrilateral analysis (Erratum), 134
Quo vadis? 345 (Guest editorial)

R

- Rationelle Kieferorthopädie, 440 (B. rev.)
Recording centric relation, two techniques for, 517 (Abst.)
Relapse during and after retention, 441 (Abst.)
Relation, centric, two techniques for recording, 517 (Abst.)
Removable appliances, patient cooperation in treatment with (Gross, Samson, and Dierkes), 392
Resin systems used with brackets and embedded wire attachments, bond strengths of (Schulz et al.), 75
Retention, relapse during and after, 441 (Abst.)
Retraction spring, canine-, new, biomechanical design and clinical evaluation of (Gjessing), 353
Retrognathia, postcondylar cartilage graft, alternative surgical method for treatment of (Banks), 406
Rheumatic fever or congenital heart disease, survey to evaluate management of patients with history of (Gaidry et al.), 338
Rocky Mountain Society of Orthodontists, sixty-fourth annual meeting of, 88
Rotation, growth, puzzle of (Dibbets), 473

S

- Skull, rat, postnatal development of, 169 (B. rev.)
Southern Society of Orthodontists, John K. Ottley, Jr., elected honorary member of, 520
Spring, canine-retraction, new, biomechanical design and clinical evaluation of (Gjessing), 353
Statistics in orthodontics, use and fallacies, 170 (Abst.)
Storage, holographic, of study models, 349 (Abst.)
Strang Award, Birte Melsen receives, 172
Study models, holographic storage of, 349 (Abst.)
Surgery norms, orthognathic, for American black patients (Connor and Moshiri), 119
orthognathic, increase in mandibular and chin projection with (Poulton and Ware), 363
pharyngeal flap, facial growth following, skeletal assessment on serial lateral cephalometric radiographs (Long and McNamara), 187
Surgical correction of dentofacial deformities, 439 (B. rev.)
orthodontic rapid maxillary expansion, tomographic assessment of nasal septal changes following (Schwarz et al.), 39
palatal expansion, conservative, 257 (Letters to the editor)

T

- Teeth, mandibular, anterior alignment, stability and relapse of (Shields, Little, and Chapko), 27
single-rooted, affected with advanced periodontal disease, orthodontic extrusion of (van Venrooy and Yukna), 67
Temporalis function of normal occlusion, electromyographic analysis of (Ahlgren, Sonesson, and Blitz), 230
normal occlusion EMG of, 171 (Abst.)

- Temporomandibular, head, and neck, pain and dysfunction, clinical management of, 439 (B. rev.)
joint dysfunction (Bandein and Timm), 275
following activator treatment, laminagraphic study of alterations in, 518 (Abst.)
Therapy, activator, headgear (Levin), 91
chin cup, effects of, on mandible (Wendell et al.), 265
Tissue reactions following different orthodontic forces in rat and man, 350 (Abst.)
TMJ dysfunction pain syndrome, myofascial pain as main symptom of, 261 (Abst.)
syndrome, chronic pain and, 85 (Abst.)
Tomographic assessment of nasal septal changes following surgical-orthodontic rapid maxillary expansion (Schwarz et al.) 39
Tooth movement, alternative means to produce, use of magnets in, 261 (Abst.)
eruptive, pattern and control of (Steedle and Proffit), 56
prostaglandins and, 85 (Abst.)

U

- University of the Pacific awards Medallion of Distinction to Frederick T. West, 442

W

- Washington University Orthodontic Alumni Association, annual meeting, 351
West, Frederick T., awarded Medallion of Distinction, 442
West Virginia Dental Association, James J. Caveney elected president of, 442
Wire attachments, embedded, and brackets, bond strengths of three resin systems used with (Schulz et al.), 75
Wire, NiTi, Chinese, new orthodontic alloy (Burstone and Morton), 445
